We're building a framework that helps museums decide whether to trust AI descriptions of their artworks

AI companies are throwing museums a lifeline. What do they want in return?

Agenda

You describe artworks (Show and Tell) SIK-ISEA collection.

AI models describe the same artworks

Each team defines what makes a good description

Blind test: judge human and AI descriptions

Results

A shared dataset and a framework for museums

Team

Ana, Andrea and Dario from the Digital Visual Studies Center at the University of Zurich.

Come join us!

Agenda

Friday . Describe and develop
